Serums

Glyco

A very nourishing and lightweight AHA serum, our Serum contains antioxidants and helps protect the skin from environmental aggressors by fighting free radical damage. As it helps to brighten and leave skin feeling more elastic, it also helps to smooth, soften and firm the skin. Another benefit of the AHA Serum is that it helps improve and reduce the appearance of fine lines and wrinkles.

Benefits

- Smooths fine lines and diminishes wrinkles.
- Nourishes the skin and refines texture.
- Assists tissue regeneration. Instantly hydrates.
- Bares a healthy and radiant complexion.

APPLICATION:

On thoroughly cleansed and completely dry skin, apply in circular motion over face. Massage gently until Serum is absorbed. Follow with application of Glyco Use twice a day.

Skin Types :

Anti-Aging, Dark Spots, Hydration, Loss of Firmness, Uneven Skin Tone

Mix Fruit

Alpha Hydroxy Acids transformed the modern cosmetic phenomenon. Instead of relying on statistics, consumers could literally feel and see an immediate difference in their skin- a smooth, brighter complexion with a diminished appearance of unwanted wrinkles. Fruit Mix contains natural Alpha Hydroxy Acids (AHAs).

This product is capable of improving moisturization while simultaneously increasing the production of structural components, such as collagen and glycosaminoglycan, as well as reversing cutaneous atrophy. Fruit Mix is the way to smooth, wrinkle-free skin, truly revealing a rejuvenated complexion.

Ingredients : Water & Vaccinium Myrtillus Fruit/Leaf Extract & Saccharum Officinarum (Sugar Cane) Extract & Citrus Aurantium Dulcis (Orange) Fruit Extract & Citrus Limon (Lemon) Fruit Extrat & Acer Saccharum (Sugar Maple) Extract.

Phyto HA

This hydrating hyaluronic acid serum is designed to calm, nourish, and hydrate your skin. Maximize your skin's hydration via a potent botanical blend - with no sticky residue! Use twice a day for smooth, plump skin. Also provides instant relief from sun exposure, rosacea,

APPLICATION :

Cleanse your face before using. Apply 6 - 8 drops of serum each morning and night. Gently massage into the skin. Wait 2 minutes before applying your next skincare product. Note: This step should be completed after using pads and before using a moisturizer.

Ingredients:

Deionized Water, Hyaluronic Acid, Phenoxyethanol, Caprylyl Glycol, Potassium Sorbate, Hexylene Glycol.

Best for all skin types.

Sensitive, dry, rosacea, acne, prone, post procedure

Amino Peptide

Harnessing the power of amino acids and peptides, our serum exhibits remarkable anti-aging and skin-regenerating properties. Specifically targeting the protection of elastic fibres in the papillary dermis, this exceptional activity promotes a state of resilient skin. By penetrating moisture deep into the skin, amino acids nourish and hydrate the skin's outer layer, while peptides work to restore youthful suppleness. This results in a marked improvement in the condition of dry skin, a reduction of the stinging sensation and an overall increase in the appearance of the skin.

A superior peptide that uses both wrinkle relaxers and wrinkle minimizers with hydration. Leaves skin more supple, smoother, and even younger-looking

Ingredients : Distilled Water, Hydro Complex, Sodium Hyaluronate, Plant Collagen, carborner, Peptide 3000, Amino Combo and Preservative

HOW : Apply 2-3 drops evenly on clean almost-dry skin, with your fingertips. Let it sink in for one minute before your next skincare move. or as directed by the physician.

Use SPF in daytime always.

Where: Entire face.

When : AM & PM, after cleansing but before moisturizing.

Vitamin-C

Vitamin C is another water-soluble vitamin primarily found in citrus product. It has been shown to promote anti-aging and anti-oxidant properties as Vitamin C is required for collagen production. Collagen is essential in maintaining healthy-looking, young skin. In maintaining healthy-looking, young skin. In addition, Vitamin C is involved in the regeneration and maintenance of many tissues. vitamin C Liposome PF is ideal for formulations where the promotion of youth and health is desired.

Ingredients :

Water & Phospholipids & Ascorbyl Palmitate

Creams

Under eye

The delicate area under the eyes needs special care to prevent premature wrinkling and sagging. Our lightweight under-eye cream features a premium blend of potent ingredients that penetrate smoothly into the skin's surface. This unique formulation stimulates collagen production, effectively plumping and regenerating the skin, resulting in a smoother and healthier appearance under the eyes.

For All skin types

For better results apply twice a day or as directed by the physician.

Ingredients: Distilled Water, Hydro Complex, Sodium Hyaluronate, Plant Collagen, carborner, Peptide 3000, Amino Combo and Preservative

Cy-White Melano Breaker

This highly effective organic Vitamin E cream can be used on the face or anywhere needing intense moisturizing and UV damage treatment. It contains 1% natural Vitamin E oil derived from sunflower seeds. It also contains pure, therapeutic grade Cypress Oil, blended with a number of citrus essential oils, together with coumarin and wild berry scent. It is the scent of arriving at the French Riviera.

Cypress Oil has been blended with non-toxic floral scents to sit within a 90.9% organic cream enriched with a high dose (1%) of Vitamin E.

For better results apply twice a day or as directed by the physician.

Ingredients: Deionized Water, Squalane oil, Algae whitening extract, Aloe x4, Glycerin, Carbopol, Tocopheryl Acetate, (Vitamin E), D Panthenol (Pro-Vitamin B5), Sodium PCA, Sodium Gluconate, Polyacrylate 1.3, Polyisobutene, Polysorbate 20, C-15-19 Alkane, Sodium Benzoate, Phenoxyethanol & amp, Ethylhexylglycerin, Ctenidine HCL

Whitening Skin Lightener

Introducing our cutting-edge MAP Whitening Cream, which contains the highly stable Vitamin C derivative, L-Ascorbic Acid Mono-Dihydrogen Phosphate Magnesium Salt. This remarkable compound remains flexible in water-based formulas, lightweight and oxygen-stable throughout its use.

Benefits :

- Unparalleled stability and resistance to degradation.
- Powerful antioxidant properties, protects the skin from oxidative damage.
- Better look for aging and delicate skin.
- Targeted correction of hyperpigmentation and age spots.

Ingredients : Deionized Water, Squalane oil ,MSH, Alpha Arbutin, AHA, Sodium Hyaluronate , Aloe x4, Glycerin, Carbopol ,Dimethicone cross polymer, Tocopheryl Acetate, (Vitamin E), D Panthenol (Pro-Vitamin B5), Sodium Gluconate, Polyacrylate 13, Polyisobutene, Polysorbate 20, C-15-19 Alkane, Sodium Benzoate, Phenoxyethanol & Ethylhexylglycerin, Ctenidine HCL

For better results apply twice a day or as directed by the physician.

Hyaluronic 10%

Discover the remarkable benefits of our exclusive Hyaluronic Cream, carefully crafted from a blend of rare botanical and marine extracts, to deliver an unparalleled level of skin hydration that is ten times greater than standard Hyaluronic Creams. With an exceptional concentration of up to 10%, this cream provides a safe and highly beneficial solution for daily use, ensuring optimal hydration of the skin.

As a natural element, hyaluronic acid is proven to help maintain skin's elasticity and suppleness while fighting the appearance of wrinkles and fine lines. Especially as our skin matures and innate levels of hyaluronic

acid decline, our hyaluronic cream becomes a valuable ally in restoring and preserving moisture. By replenishing lost hydration, it provides a softer, plumper and more even complexion.

Ingredients : Deionized Water, Squalane oil ,MSH, Alpha Arbutin, AHA, Sodium Hyaluronate , Aloe x4, Glycerin, Carbopol ,Dimethicone cross polymer, Tocopheryl Acetate, (Vitamin E), D Panthenol (Pro-Vitamin B5), Sodium Gluconate, Polyacrylate 13, Polyisobutene, Polysorbate 20, C-15-19 Alkane, Sodium Benzoate, Phenoxyethanol & Ethylhexylglycerin, Ctenidine HCL

For better results apply twice a day or as directed by the physician.

Peels ▶

Glycolic 50% & 70%

PROTOCOL : Glycolic acid provides a gentle exfoliation that fades fine lines, wrinkles, blemishes, sun damage and hyper pigmentation. Can be used on the face, neck, back, hands, arms and legs. Apply with your choice of either a fan brush, wood cotton tipped swab or for a more aggressive peel use gauze.

APPLICATION : Apply to clean, prepared skin with fan brush, cotton pads, or gauze, then rinse with tepid water. Follow with treatment serum, moisturizer, and SPF. Recovery time varies accordingly to individual skin traits. It is common for a glycolic Peel to show no visible flaking skin as the exfoliation is happening at the cellular level.

SKIN TYPES

- Normal • Combination • Mature • Sun Damaged

RESULT : Skin will appear fresh with a natural glow. Minimized pores, improved acneic conditions, and overall improved clarity for a more youthful appearance.

INGREDIENTS : Deionized Water, Glycolic Acid, Sodium Hydroxide, Xanthan Gum, Phenoxyethanol, Caprylyl Glycol, Potassium Sorbate, Hexylene Glycol.

Glyco Lactic 30% & 55%

Protocol :

This peel belong to the AHA group, which provide extraordinary benefits for your skin. concentration is considered very mild and safe.

Skin Types : Dry

APPLICATION :

Apply to clean skin and allow to process for 2-10 minutes, depending on client's tolerance level. Rinse with tepid water and follow with appropriate treatment serum, moisturizers, and sunscreen.

Ingredients :

Deionized Water, Isopropyl Alcohol, Lactic Acid, Disodium EDTA, Phenoxyethanol, Caprylyl Glycol, Potassium Sorbate, Hexylene Glycol.

Arbutin + Kojic

Protocol :

AHA Kojic Peel should only be used every 2-3 week. For best results use with other natural skin lightening products and daily sun protection.

Application :

Remove makeup, cleanse skin with a transparent gel cleanser and then wipe the desired area with pre-peel, alcohol, or acetone solution. Apply peel to gauze pad and buff skin in a circular motion. Neutralize and rinse with water after 1-3 minutes. Can increase processing time a tolerance builds.

Skin Types : • All Skin Types • Sun Damaged

Results :

Skin will appear clean, firm, youthful-looking and have a more even skin color.

Ingredients :

Deionized Water, Glycolic Acid, Lactic Acid, Kojic Acid, Sodium Lactate, Sodium Hydroxide, Xanthan Gum, Phenoxyethanol, Caprylyl Glycol, Potassium Sorbate, Hexylene Glycol.

Vitamin C + Retinol

PROTOCOL :

Rejuvenating properties. Can improve the appearance of aged and blemished skin. For advanced treatment pre-conditioned skin.

SKIN TYPES : • Aged & Acneic

APPLICATION :

Apply to clean, prepared skin with fan brush, cotton pads, or gauze. Allow to process for designated time and neutralize, then rinse with water. Follow with treatment serum, moisturizer, and SPF. Recovery time varies accordingly to individual skin traits.

RESULTS :

Wrinkles Free & Acne Mark Free Skin.

INGREDIENTS :

Purified Water, Caprylic/Capric Triglycerides, Squalane, Cetearyl Alcohol, Glycerin, Cyclopentasiloxane, Sodium Acrylate/Sodium Acryloyl Dimethyl Taurate Copolymer, Retinol, Cyclohexylsiloxane, Glyceryl Stearate, Aloe Barbadensis Leaf Extract, Phenoxyethanol, BHT, Caprylyl Glycol, Hexylene Glycol, Citric Acid.

Salicylic 30%

PROTOCOL :

Deep Cleansing peel treatment for oily/acneic skin types. Treats and prevents breakouts and lightens hyperpigmentation from past blemishes.

SKIN TYPES : Oily

APPLICATION :

Apply to clean skin and allow to process for 2-10 minutes, depending on client's tolerance level. Rinse with tepid water and follow with appropriate treatment serum, moisturizers, and sunscreen.

RESULTS :

Significant reduction in acne conditions, clear pores, and a more even texture and tone.

INGREDIENTS :

Deionized Water, Isopropyl Alcohol, Salicylic Acid, Disodium EDTA, Phenoxyethanol, Caprylyl Glycol, Potassium Sorbate, Hexylene Glycol.

Jessner 17%

PROTOCOL : The Jessner Peel is a combination therapy for individuals plagued with acne, enlarged pores, excessive sebum production and hyperpigmentation.

SKIN TYPES

• Oily • Combination • Acne • Hyperpigmentation

RESULTS :

Depth of peel and recovery time is determined by the number of layers applied during a treatment. This peel is not recommended for darker skin tones (Fitzpatrick 4-6) due to possible post inflammatory hyperpigmentation from resorcinol exposure.

TCA 20% & 30 %

PROTOCOL : Deep skin rejuvenation for clients requiring a deeper peel treatment. Also perfect for body treatments such as hands, arms, and chest.

APPLICATION :

The TCA peel should be applied by experienced professionals only. The solution is applied to the skin until a smooth application is achieved. The face may be uncomfortable initially, and mild swelling may occur. Can be layered for deeper penetration but only one layer should be applied during initial treatment. For optimal result, TCA peels should be performed in a series of 2-3 treatments 3-4 weeks apart.

Sali-mandi

Salicylic mandelic acid combination peel gives you a great alpha/ beta treatment. Mandelic is an alpha hydroxy acid made from bitter almonds. It's molecular structure is larger than glycolic acid and lactic acid, thus causing it to penetrate the skin more slowly = less topical irritation. And addition of Salicylic Acid to help those of you with pesky acne and acne scarring issues.

SKIN TYPES :

• Acneic Skin • Sun Damaged • Pigmented skin

INGREDIENTS :

Isopropyl Alcohol, Salicylic Acid, Lactic Acid, Resorcinol, Phenoxyethanol, Caprylyl Glycol, Potassium Sorbate, Hexylene Glyco.

APPLICATION :

This solution is applied with light, gentle strokes onto the skin and should be layered up to 8 layers. A mild stinging sensation may be felt for several minutes after application. Jessner peels can be applied every two-three week until desired results are achieved.

SKIN TYPES • All Skin Types

RESULTS :

Significant improvement in texture, tone, and elasticity.

APPLICATION :

Remove makeup, Cleanse the skin, Apply peel to gauze pad and buff skin in a circular motion. Neutralize and rinse with water after 1-7 minutes. Can increase processing time as tolerance builds.

RESULTS :

Salimandi peel exfoliates skin and helps to clear clogged pores, oil production, breakouts, blackheads, whiteheads. Minimizes the appearance of fine line, wrinkles.

INGREDIENTS :

Deionized Water, Salicylic Acid (30%), Mandelic Acid (20%) Sodium Lactate, Sodium Hydroxide, Denatured Alcohol, Phenoxyethanol, Caprylyl Glycol, Potassium Sorbate, Hexylene Glycol.

INGREDIENTS :

Cyclopentasiloxane, Dimethicone, Dimethiconol, Ethylhexyl Cocoate, Tocopherol Caprylyl/ Capric, Triglyceride, AHA & Vit C, BHT, Dimethylmethoxy, Chromanol

Pre Peel

Enhanced Retinol Serum has a specially designed delivery System to dramatically enhance absorption of Vitamin A to the cellular level without irritation. The appearance of wrinkles and fine lines are reduced, moisture and Elasticity increase, and the complexion glows.

DIRECTION FOR USE

After cleansing apply a small amount on face and neck or Any other desired part. Allow a few minutes to absorb. Apply yellow cream over the top.

Yellow Leave on

A Yellow peel is a combination of phytic acid, kojic acid, and azelaic acid. It is generally applied after a fruit acid peel.

Indication

- Lack of collagen production
- Loss of skin elasticity and strength
- Need for skin whitening
- Excessive pigmentation caused by solar radiation
- Skin aging and photoaging
- acne • hyperpigmentation

Yellow Cream is an alternative to the preparations containing hydroquinone. This Cream contains more than 20% depigmenting agent along with retinol and exfoliating agents. combination of Glycolic Acid, Salicylic offer amazing skin lightening benefits without the inclusion of Hydroquinone.

Kojic, Lipoic, and Arbutin inhibit melanin production in the skin, reducing the appearance of dark patches and regulates melanin biosynthesis. This is effective in Hyperpigmentation, Harnon Spot, Discolouration, Melasma etc.

Anti Melasma Peel

Melasma peel uses acids at not very stronger concentrations to treat the desired area of skin. They reduce the appearance. The reason is stronger acid cannot be leave on for a longer period than 2-3 minutes Melasma peel is a combination of stronger and milder acid and can be keep for 7-8 minutes which helps in dissolving the pigment patches of hyperpigmentation by removing the epidermis. Deeper versions may also penetrate the middle layer of your skin (dermis) to produce more dramatic results.

Ingredients: This product is a blend of kojic acid, azelaic acid, glycolic acid, lactic acid, ascorbic acid, ferulic acid, These acids having properties and ability to penetrate the skin as well break down the melasma patches

DIRECTION :

Allow 5-7 minutes after the burning starts. Usually, the burning starts about 30 to 40 seconds after the peel is applied. On darker skin this duration can be reduced.

Glutathione Peel

Glutathione, being a strong antioxidant with additional anti-melanogenic properties, has recently become the most popular "systemic skin lightening molecule."

To use as peeling agent, the combination of other brightening property agents containing vitamin C like Kojic acid, Malic acid, Ferulic Acid create a good brightening effect on skin

Glutathione and Alpha Arbutin is an advanced skin care product designed to improve the appearance and health of the skin. The product is formulated with a combination of active ingredients that work together to provide a visible improvement to the skin.

Ingredients: Aqua Ethoxydiglycol, Lactic Acid% Glycolic 25%, Glutamine 2%, L, Kojic 20% Ascorbic 20, Propylene Glycol, Kojic 20% Ferulic Acid 1%, sodium hyaluronate, Preservative.

DIRECTION :

- Clean or degrease the skin.
- Apply peel evenly and keep for 3-4 minutes.
- Wipe off with soft napkin and clean with water.
- Apply sun block when going in sun.

Fusion Peel

Introducing Fusion Peel, a powerful fusion that brings together the goodness of AHAs, BHAs and Trichloroacetic Acid. This remarkable combination works together to deliver excellent results for your skin. Experience the perfect balance of exfoliating and rejuvenating properties in one transformative peel.

Application Method- Take a cotton ball and apply the solution directly from the bottle; There is no need to transfer it to a separate bowl. Be careful as some ingredients may crystallize when exposed to air.

INGREDIENTS : Salicylic Acid, TCA, Fruit Enzyme Acid, Lactic, Glycolic.

DIRECTION : Time - 4-7 minutes after burning starts .On dark skin observation required . if its frost early then must be neutralize

After Peel - Person can resume daily care other than scrubbing . Can use Hyaluronic serum or any light lotion

Under Eye

PROTOCOL : Under eye peel contains fruit acids which does not work on deeper layer and just deal with epidermis crease. At the same time it stimulate collagen so it's make the under eyes fuller. this peel is mild and effective natured.

SKIN TYPES : Suitable for all type of skin.

APPLICATION : Clean the area, and apply Solution with the help of cotton. Leave 3-5 minutes, after that Neutralize or clean with cold water.

RESULTS : Skin will appear fresh with natural glow. And improved clarity with sittings.

INGREDIENTS : Glycolic lactic, Sugar mapple. orange extract, Cherry extract

INGREDIENTS : Deionized Water, Glycolic Acid, Lactic Acid, Vitamin C (Ascorbic Acid), Vitamin C (Ascorbyl) Glucoside, Sodium Hydroxide, Xanthan Gum, Phenoxethanol, Caprylyl Glycol, Potassium Sorbate, Hexylene Glycol.

Lactic

Lactic Peel is AHA group of peel and derived from milk Lactic acid is used to create a mild chemical peel that can help even out your skin tone. It can help address age spots, melasma, and rough texture, along with fine lines.

Benefits :

- By way of exfoliation, these peels get rid of dead skin cells, germs and toxins from the skin thus unclogging pores. This will ensure that the products used for skin care are absorbed into the skin more effectively.
- The exfoliation done by the lactic acid peel will ensure the generation of new, healthier skin cells and stimulation of collagen and elastin, which can reverse the appearance of mild wrinkles.

- Lactic acid also aids in restricting the generation of melanin in the skin which helps in the reduction of dark spots and hyperpigmentation with an overall lighter skin tone.
- Lactic acid has a moisturizing effects on dehydrated and dry skin.

INGREDIENTS : Deionized Water, Isopropyl Alcohol, Lactic Acid, Disodium EDTA, Phenoxethanol, Caprylyl Glycol, Potassium Sorbate, Hexylene Glycol.

Radiance

PROTOCOL : The Radiance Peel is a combination therapy for individuals plagued with acne, enlarged pores, excessive sebum production and hyperpigmentation.

SKIN TYPES

- Photoaged Skin
- Hyper-Pigmentation
- Dull Complexion
- Fine Lines and

RESULTS : Renew the complexion, reduce the appearance of fine lines, and improve skin tone.

APPLICATION : This solution is applied with light, gentle strokes onto the skin and should be layered up to 8 layers. A mild stinging sensation maybe felt for several minutes after application. Radiance peels can be applied every two-three week until desired results are achieved.

INGREDIENTS : Purified Water (Aqua), Lactic Acid, Glycolic Acid, Propylene Glycol, Mandelic Acid, Citric Acid, Glycerin, Hydroxyethylcellulose, SD Alcohol 40B, Sodium Hydroxide, Malic Acid, Salicylic Acid, Aminopropyl Ascorbyl Phosphate, Benzyl Alcohol.

Goji Berry

Goji Berry is the wonderful, anti-aging exfoliation, it's non-irritant and gently remove dead skin cell without any harsh abrasives. The legendary properties of the Goji Berry work uniquely to lift the dry dull skin to a new skin feeling baby soft and smooth.

SKIN TYPES : • Aged & Acneic

DIRECTION : Apply to clean face and neck gently massaging with an upward, outward circular motion and leave for 10-15 minutes, Clean with plain water and give any berry mask.

INGREDIENTS :

Purified Water, Butylene Glycol, Biosaccharide Gum-1, Echinacea Angustifolia Extract, Rosmarinus officinalis (Rosemary) Leaf Extract, Panax Ginseng Extract, Prunus Armeniaca (Apricot) Fruit Extract, Camellia Sinensis (Green Tea) Leaf Extract, Goji Berry Extract, Retinyl Palmitate, Tocophery Acetate, Ascorbic Acid, Panthenol, Carbomer, Phenoxethanol, Sodium Hydroxide, Fragrance.

Pumpkin

The pumpkin peel is a blend of acids and fruit enzymes with minimal irritation, almost no downtime, and fabulous corrective action.

Formulated with precision, this peel effectively removes the outermost layers of skin without causing discomfort or intense irritation.

Its remarkable properties make it suitable for everyone, reducing the risk, downtime and discomfort often associated with other peels. Witness the magic as it exfoliates dead skin, removes unwanted epidermal cells, and dissolves oil, cellular debris, and blockages, leaving your skin rejuvenated and revitalized. Embrace the wonders of our Pumpkin Fusion Peel and get a glowing complexion like never before.

INGREDIENTS : Deionized Water, Lactobacillus, Pumpkin Fruit Ferment Filtrate, Vitamin C (Ascorbic Acid), Vitamin C (Ascorbyl) Glucoside, Sodium Hydroxide, Xanthan Gum, Phenoxethanol, Caprylyl Glycol, Potassium Sorbate, Hexylene Glycol.

Generously apply Daily Collagen complex, Hyaluronic Serum or Squalene as needed for tight, dry skin. Use a minimum of broad spectrum SPF 30 every day to protect healing skin.

Development time 15-20 mins.

Glow Peel

Introducing The Luminal Glow Peel - Unlock the Hidden Gem to Achieve Your Ultimate Glowing Color Without An Appointment! The Lumina Glow Peel embodies an efficient fusion of powerful yet mild acids, enriched with The Pathway's exclusive Oxygen Infusion Mechanism, that brightens upon application, offering exfoliation without any noticeable peeling for most users.

DIRECTION : The optimum development time for this peel is set at 5 to 7 minutes. For individuals with darker skin tones, it is necessary to be extra careful and observe the peel closely during this period as compared to those with lighter skin tones.

After Your Peel

Apply a generous amount of collagen complex, hyaluronic serum, or squalene daily, depending on your specific needs, especially if your skin feels tight and dry. Additionally, be sure to use at least a broad-spectrum SPF 30 every day to protect recovering skin from harmful environmental factors. Your skin will thank you for this thoughtful and protective care.

Ingredients : Averrhoa Carambola Fruit Extract & Passiflora Incarnata Fruit Extract & Actinidia Chinensis (Kiwi) Fruit Extract & Garcinia Mangostana Extract & Ananas Sativus (Pineapple) Fruit Extract & Punica Granatum Extract & Litchi Chinensis Fruit Extract & Zizyphus Jujuba Fruit Extract & Psidium Guajava Fruit Extract

Party Peel

Introducing : Party Peel is a special blend of Vitamin C and other fruit acids, primarily designed to strengthen the epidermis. This remarkable rind does not cause crusting. Instead, it gently dissolves the top layer of the skin, rejuvenating it.

DIRECTION : The application process involves 15-20 minutes of development time, which is closely monitored. Growth begins with a slight tingling sensation, which usually occurs within 30 seconds of application.

The results are truly remarkable, as the Party Peel enhances the glow and radiance of your skin. For best results, it is recommended to use the peel once a week. Each application not only brings about a noticeable improvement but also imparts a stunning glow to your complexion.

INGREDIENTS : Water Vaccinium Myrtillus Fruit/Leaf Extract & Saccharum Officinarum (Sugar Cane) Extract & Citrus Aurantium Dulcis (Orange) Fruit Extract & Citrus Limon (Lemon) Fruit Extract & Acer Saccharum (Sugar Maple)
